# **Study on the Implementation of the 2005 UNESCO Convention on the Protection and Promotion of the Diversity of Cultural Expressions for the European Parliament**

## **BACKGROUND INFORMATION**

### **Introduction**

The Geneva based law firm German Avocats and its interdisciplinary research team is completing a study for the European Parliament's Committee on Culture and Education (CULT) whose overall objective is to provide a summary of the state of implementation of the UNESCO Convention on the Protection and Promotion of the Diversity of Cultural Expressions of 2005, in particular in fields where the European Community would be expected to provide leadership or coordination.

This study shall give assistance and long-term guidance to the EU on implementing the UNESCO Convention by carrying out a detailed analysis of the obligations set out by this international treaty. In particular, we shall gather information on the various practices in implementing the UNESCO Convention, from a legal and practical viewpoint, and identify challenges and measures to help achieve the objectives of this instrument.

For these purposes, we drafted three sets of questionnaires. The first questionnaire shall allow us to gather legal data. The second questionnaire shall inform us about the implementation of the UNESCO Convention from the perspective of representatives of civil society. The third questionnaire shall cover the situation from the angle of a selection of regional and regional organizations, (the ASEAN, the African Union, the Association of Caribbean States, the Commonwealth, the International Organisation of La Francophonie, the Council of Europe, the European Union, UNESCO, WTO and WIPO).

### **Expected results from the surveys**

We expect to collect valuable information on the public measures that are specifically undertaken to protect and promote cultural diversity on the national level in different jurisdictions. We shall obtain insights to compare regulatory practice in a variety of economic and political situations that characterize the selection of countries located in different geographical area. We will obtain data which will allow us to compare regulatory practice in varying economic and political situations. We shall use and compare this information in our subsequent analysis that will eventually provide the basis of our conclusions and recommendations to the European Parliament.

## **Legal survey**

The legal questionnaire will focus on legal aspects of the implementation of the Convention. We send our survey to law firms specializing in international public law in Canada, Brazil, China and Senegal. In Europe, we will directly investigate the legal situation in Italy (as a larger jurisdiction) and Switzerland (as a smaller jurisdiction). In addition, we will send the legal questionnaire to a sample of eight National UNESCO Commissions of EU Member States, which will reflect geographic, political and economic diversity. This legal survey shall allow us to assess the current state of implementation of the UNESCO Convention in these countries in terms of regulations and administrative practice.

We will attach the replies to this questionnaire to our study that will be available over the internet.

The implementation of the Convention forms a integrated part of the Danish cultural policy.

If the answer is "Yes":

7 What **institutional measures**, if any, does your government take to facilitate dialogue and coordinate action between culture and trade ministries and other relevant ministries (e.g. foreign affairs ministry) on the national level in order to meet the objectives of the UNESCO Convention?

Since the entry-into-force of the Convention the Danish Ministry of Culture has regularly informed the stakeholders (the various ministries, policy makers, civil society actors etc) about the Convention by mail, meetings and seminars.

Within the process of negotiating the operational Guidelines of the UNESCO Convention systematic coordination takes place between the relevant Ministries (Ministry of Foreign Affairs, Ministry of Economic and Business Affairs, Ministry of Education, Ministry of Refugee, Immigration and Integration Affairs).

The fundamental role of civil society is also acknowledged in the follow up process of the UNESCO Convention. Since the Danish ratification of the Convention, the Danish Ministry of Culture on a yearly basis has arranged open public hearings/meetings, where status of the Convention, initiatives and activities were discussed.

8 How does your country contribute to meet the objectives of the UNESCO Convention on the **regional and international levels** (e.g. coordination and collaboration with regional organizations, promotion of exchanges between National UNESCO Commissions, involvement in negotiating the operational Guidelines of the UNESCO Convention, activities within the Intergovernmental Committee)?

As a member of EU Denmark contributes to the cooperation with other regional/international organizations as for example ASEM (Asia-Europe Meeting) and ACP (Afrique Caraibés Pacifique).
